TradingNet is used to issue Documents for your merchandising operation. It generates Quotation, Performa Invoice, Sales Confirmation, Contract, Purchase Order and Official Invoice. Furthermore, it provides Cost History comparison, Sales report and group of Sales Analysis report. It keeps all the product details of you company and converts detail to quotation throughout invoice in one modules.

Convert product details & photos into a detail sheet. Keep record of product details, packing, dimension, content, specification, payment terms, order minimum, lead-time, surcharges, tax, freight, discount, suppliers and special terms.

Starting from version 4.28 onward, user is able to make their own change on the design. User may consider hire a 3rd party programmer or train an in-house merchandiser to modify the product to meet their needs. In this case, user can simply change the design layout of all the report or input format. Whatever changes to field titles, field width, field length and position?

Remote Access TradingNet Database over internet, able to view record details from overseas. (With users own Window XP or Server) Multiple user access to the database at the same time. Workgroup and multi-user functionality.

Incentive report, quotation analysis to improve successful quote and payment tracking is added to the product.
